

THE SMART BOTTLE HOME FILTRATION SYSTEM

SYSTEM FEATURES

AUTOMATIC BYPASS SYSTEM

Unlike many other systems, The Smart Bottle Home Filtration System will not shut down your water supply or expose your home to salt during its cleaning cycle.

SODIUM-FREE CAPABILITY

The Smart Bottle System can function with sodium-based or sodium-free regenerants to give you maximum flexibility and control.

MULTIMEDIA

An innovative organo-synthetic blend of engineered matrix filtration is designed to provide the perfect balance of contaminant removal, strength and efficiency.

VORTEX

Vortex technology ensures that The Smart Bottle Home Filtration System cleans itself as quickly and environmentally efficiently as possible.

HIGH FLOW

Generous system porting allows the Smart Bottle to filter your water as quickly as you can use it.

COMPUTER CONTROL

The computer control center in The Smart Bottle is designed to the highest specifications.

DIGITAL LIFESTYLE TECHNOLOGY

Intermountain Water has licensed the ground breaking Digital Lifestyle™ operating system and incorporated it into the Smart Bottle Home Filtration System. Digital Lifestyle™ automatically controls how often it cleans and how much regenerate to use. Digital Lifestyle™ also allows for future expansion, such as Home Automation Interfaces and Internet Access.
